CLEANING POLISH*

CLEAN & SHINE

€ 45

Emeco Clean & Shine is a fast and effective formula that removes dirt and black marks from the surface of our polished aluminum chairs. This easy to use cleaning polish comes with a specially treated cotton wadding for application and is ready to use directly from the can.

*FOR POLISHED ITEMS ONLY.

CHAIR TROLLEY

TROLLEY FOR 2 STACKS OF CHAIRS

€ 1090 Hand-brushed

Suitable for all stacking chairs.

SOUND ATTENUATION PAD

SOUND ATTENUATION PAD UNDER SEAT

€ 35

Suitable for all aluminum chairs and stools.

MADE-TO-ORDER COLLECTIONS

Since 1944, Emeco has built aluminum chairs by hand at our factory in Hanover, Pennsylvania. All chairs and stools are made from recycled aluminum with a hand brushed or hand polished finish.

Forming, welding, grinding, heat-treating and anodizing are just a few of the 77 steps required to craft our aluminum chairs. No one else makes chairs this way. No one else can. It takes a human eye to know when the process is done right, and it takes human hands to get it that way.

Now we have hand picked a curated selection of some of our most special handcrafted items from the past twenty years. Created together with architects and designers such as Philippe Starck, Frank Gehry, Norman Foster, Ettore Sottsass and Jean Nouvel, the chairs and stools in our Made-to-Order collections come with heritage built-in.

What truly sets our Made-to-Order collections apart is the time we dedicate to build each piece. These chairs and stools are our most intricate and demanding to make, featuring elaborate handcrafting techniques and many hours - and yards - of hand welding. Welds that are then carefully ground perfectly smooth, for a sleek, uniform appearance. The hand polishing alone takes 8 hours. Each chair is made-to-order by our most experienced craftsmen.

The result: timeless, iconic chairs and stools that we guarantee for life. Heirlooms to be passed down for generations.

[BACK TO INDEX](#)

Emeco furniture is built in accordance with the highest standards of design and manufacture. Emeco warrants its furniture to be free from defects in material and workmanship under normal use and conditions for the periods stated below from date of receipt.

This warranty extends only to the original purchasers who purchased new products from Emeco.

Fabric that is not manufactured by Emeco is not covered by this warranty but governed solely by the guarantees or warranties, if any, of the upholstery manufacturer. This warranty also does not include factory upholstery, scratches and chips to a powder coated color finish, scratches or discoloration and deterioration to plastic (due to harsh cleaners) or plastic laminate components, scratches and blemishes to polyurethane components, scratches and blemishes to a polished finish, wood finishes, table top wear, or floor glide wear.

This warranty does not include scratches or discoloration and deterioration to rPET plastic (due to harsh cleaners), reclaimed Wood Polypropylene plastic or floor glide wear. Variations in color and finish are integral to the rPET and reclaimed Wood Polypropylene as well as all the recycled and reclaimed materials we use in our products and should be expected.

Natural variations in wood grain and color is characteristic of this natural material and are not included in this warranty.

Discoloration of surface materials due to stains, harsh cleaners, dye from clothing including denim are not included in this warranty.

Emeco is not liable for any loss of time, inconvenience, commercial loss, incidental or consequential damages incurred or suffered by the purchaser or any third party in respect of the product.

This warranty does not apply to furniture damaged by accident, abuse, neglect, or misuse, nor does it apply if repairs are attempted by purchaser or by anyone other than an authorized Emeco agent or the Emeco factory.

In no event shall liability under this warranty exceed the original purchase price of defective furniture.

Emeco will replace or repair defective furniture covered by this warranty. Customers must send an email to info@emeco.net to report a claim, and items must be shipped, prepaid to: **Emeco**, 805 Elm Ave., Hanover PA USA 17331.

ENVIRONMENTAL STATEMENT

[BACK TO INDEX](#)

EMECO'S ENVIRONMENTAL VISION:

At Emeco, we take a responsible approach to our production and processes when manufacturing our furniture. We are committed to sustainability and protecting our environment. Emeco is committed to minimizing our impact on the environment by choosing materials, methods and processes that offer the least risk to our environment without compromising design, performance or affordability.

OUR POLICY:

We utilize the best available control technologies to reduce our environmental impact where needed, recycling waste and used materials at every opportunity, eliminating other impacts to the environment and reducing the carbon footprint of our products to minimum achievable levels.

At Emeco, we strive to improve our operations in all areas. In addition to reducing energy consumption, whenever possible we go beyond and select energy sources that have the lowest impact on the environment, such as electricity from renewable resources.

We use post-consumer and post-industrial waste that would otherwise be disposed as waste, to create chairs intended to last decades. At Emeco we make chairs from recycled aluminium that are made to last at least 150 years.

VOC CERTIFICATION

The following models conform to the ETL Environmental VOC+ Product Certification: 1 Inch Aluminum Collection, 1 Inch Reclaimed Collection, 20-06 Collection, Alfi Collection, Broom Collection, Emeco Café Aluminum Tables, Emeco Stool, Heritage Collection, Hudson Collection, Icon Collection, Kong Collection, Lancaster Chairs and Stools, 111 Navy, 1006 Navy, 1104 Navy, Navy Officer Collection, Naval Officer Upholstered Collection, Run Aluminum Benches and Tables, Sezz Collection, SoSo Collection, Superlight, SU Cork, SU Recycled Plastic, SU Wood and Za Collection.

HEALTH PRODUCT DECLARATION (HPD)

The following models conform to the Health Product Declaration (HPD), and are included on Mindful Materials platform: 1 Inch Aluminum Collection, 20-06 Collection, Alfi Collection, Broom Collection, Emeco Café Aluminum Tables, Emeco Stool, Emeco Occasional Table, Heritage Collection, Hudson Collection, Icon Collection, Kong Collection, Lancaster Collection, 111 Navy, 1006 Navy, 1104 Navy, Run Collection, Sezz Collection, SoSo Collection, SU Collection, Za Collection.

HEALTHIER HOSPITALS PROGRAM

The following models adhere to the Healthier Hospitals Safer Chemicals Challenge, Version 2.0: 1 Inch Aluminum Collection, 1 Inch Reclaimed Collection, 20-06 Collection, 2 Inch Collection, Alfi Aluminum, Broom Collection, Emeco Café Aluminum Tables, Emeco Stool, Emeco Occasional Table, Heritage Collection, Hudson Collection, Icon Collection, Kong Collection, 111 Navy, 1006 Navy, Navy Officer Collection, Naval Officer Upholstered Collection, On & On Collection, Run Aluminum Benches and Tables, Sezz Collection, SoSo Collection, SU Cork, SU Recycled Plastic, Za Collection.

OUR PROCESSES:

- Emeco's products are manufactured in the US.
- The Emeco factory in Hanover PA conforms to all applicable US, State and Local environmental requirements.
- Emeco uses clear coat anodizing as the surface finishing method for most of our products. This not only significantly reduces particulate emissions, but also produces no volatile organic carbons (VOCs) in the application of the finish.
- All welding machines have internal cooling systems to reduce water consumption by 15%
- Advanced lighting technologies are installed throughout our manufacturing operations resulting in a 24% annual reduction in electrical consumption rate.
- All aluminum used in Emeco products are at least 80% recycled and 100% recyclable.
- Of the recycled aluminium, half is post-consumer (soft drink cans) and half is post-industrial (manufacturing scrap). Chairs made out of virgin aluminium have an energy density that is 17 times higher than that of Emeco chairs. Use of recycled aluminium as oppose to virgin aluminium in production leads to 95% less energy consumption.
- Emeco's aluminium scrap generation-rate is approx. 6% annually by weight.
- Emeco Manufacturing returns 100% of aluminium scrap to recyclers.
- Emeco's 111 Navy Chair contains at least 90% Recycled PET plastic.
- 100% of the PET used comes from a post-consumer recycled source.
- Emeco's Recycled PET chairs are 100% recyclable.
- Emeco uses sustainable timber and low-VOC finishes on our wood components.
- Emeco's Broom chair is made of 90% industrial waste content and is 100% recyclable.

[BACK TO INDEX](#)

- The reclaimed wood polypropylene seats of Emeco's Alfi and 1 Inch collections are made of 100% industrial waste content and are 100% recyclable.
- Emeco's Su Collection uses a variety of reclaimed and recycled materials in components such as recycled PET, Green Concrete mixed with post-consumer glass, reclaimed wood and recycled aluminum.
- Emeco has a chair-to-chair recycling program. The plastic and all-aluminum chairs can be returned to Emeco for recycling. Emeco will recycle and put the recycled material back in chair manufacturing of the same or similar model.

ANSI/BIFMA STRENGTH & STABILITY TESTING

The following models conform to ANSI/BIFMA X5.1: 1 Inch Aluminum Collection, 1 Inch Reclaimed Collection, 1952 Collection, 20-06 Collection, Alfi Collection, Alfi Aluminum Collection, Broom Collection, Hudson Collection, Icon Collection, Kong Collection, Lancaster Collection, 111 Navy Collection, 1006 Navy Collection, On & On Collection, Run Tables, SU Collection, Za Collection.

LEED CERTIFICATION

No product can be LEED Certified; Certification is only granted to the entire building or interior. A project is LEED Certified by qualifying for credits that accrue when environmentally and materially sound choices are made in the design and building process. Product choices can help the project qualify for LEED Certification by being environmentally sound and materially transparent. Some jurisdictions require new construction to have a minimum number of LEED Credits.

Based on the location of the project, and distance from Hanover, PA, specifying Emeco products may help to gain points in locally sourcing.

Based on the new requirements of LEED v4.1:

BUILDING DESIGN + CONSTRUCTION: MATERIALS AND RESOURCES CREDITS

Credit (New): Building Product Disclosure and Optimization - Sourcing of Raw Materials.

Specifying Emeco aluminum and/or plastic furniture contributes to this credit in terms of Recycled Content because all of our products contain recycled content. Please refer to the individual product to confirm percentage.

Credit (New): Building Product Disclosure and Optimization - Material Ingredient Reporting.

Specifying any Emeco product contributes to this credit in terms of material disclosure. All our products have HPDs that list out the material parts down to the thousand level.

Updated Healthcare Credit: Furniture and Medical Furnishings

Emeco products can contribute in a variety of ways, specifically through our VOC testing that complies by ANSI/BIFMA e3-2019e, Sections 7.6.1, 7.6.2, 7.6.3 and California Department of Public Health (CDPH) Standard Method v1.2: Private Office and School Classroom

BUILDING DESIGN + CONSTRUCTION: INDOOR ENVIRONMENTAL QUALITY CREDITS

Credit, Updated and consolidated: Low-Emitting Interiors

Emeco provides an array of products with potential to contribute to this credit based on extensive VOC testing that is in accordance with both ANSI/BIFMA e3-2019e, Sections 7.6.1, 7.6.2, 7.6.3 and California Department of Public Health (CDPH) Standard Method v1.2: Private Office and School Classroom

INTERIOR DESIGN + CONSTRUCTION: MATERIALS AND RESOURCES CREDITS

Prerequisite Expanded: Construction and Demolition Waste Management Planning

Based on this credit, Specifying Emeco furniture may contribute to Construction Waste Management because Emeco uses 100% recyclable shipping and packing materials.

Emeco also offers the ability to recycle chairs at end of life, which may potentially contribute to Construction Waste Management, although we expect a lengthy lifetime of our products.

New LEED V4: Building Product Disclosure and Optimization - Sourcing of Raw Materials

Specifying Emeco aluminum and/or plastic furniture contributes to this credit in terms of Recycled Content. Emeco uses recycled material as far as possible in the creation of our products. All Emeco aluminum furniture is made from at least 80% recycled aluminum. Emeco plastic seating is made from recycled PET or reclaimed polypropylene, both of which are in turn recyclable. Please refer to the individual product to confirm percentage.

New LEED V4: Building Product Disclosure and Optimization - Material Ingredient Reporting

Specifying any Emeco product contributes to this credit in terms of material disclosure. All our products have HPDs that list out the material parts down to the thousand level.

INTERIOR DESIGN + CONSTRUCTION: INDOOR ENVIRONMENTAL QUALITY CREDITS

Credit: Updated and consolidated, Low-Emitting Interiors

Emeco provides an array of products with potential to contribute to this credit based on extensive VOC testing that is in accordance with both ANSI/BIFMA e3-2019e, Sections 7.6.1, 7.6.2, 7.6.3 and California Department of Public Health (CDPH) Standard Method v1.2: Private Office and School Classroom.

[BACK TO INDEX](#)

BUILDING OPERATIONS + MAINTENANCE: MATERIALS AND RESOURCES CREDITS

Updated and Renamed: Purchasing - Facility Maintenance and Renovations

Emeco also offers the ability to recycle or reuse chairs at end of life, which may potentially contribute to Facility Maintenance and Renovation, especially considering the length of lifetime we typically expect.

Credit: Solid waste management - ongoing

Emeco will take back chairs to recycle at end of life.

PILOT CREDITS

Environmentally Preferable finishes and furnishings

BD+C, ID+C

Emeco provides an array of products with potential to contribute to this credit based on extensive VOC testing that is in accordance with both ANSI/BIFMA e3-2019e, Sections 7.6.1, 7.6.2, 7.6.3 and California Department of Public Health (CDPH) Standard Method v1.2: Private Office and School Classroom.

LEED (Leadership in Energy and Environmental Design) is a division of the US Green Building Council, a government sponsored organization whose goal is to promote environmentalism in the building industry. For more information visit www.usgbc.org.

CARBON FOOTPRINT DECLARATION

Emeco measures and declares the carbon footprint of our products. Carbon footprint data shows the greenhouse gases (=CO₂ emissions) that are emitted to create a product. We measure our impact starting from the creation of the product to the moment it leaves our factory, also called "cradle-to-gate". Although many chairs do not yet declare a carbon footprint measurement, a typical carbon footprint ranges from 30-60 kg CO₂e. Ours are generally much lower than that - as comparison, the 1006 Navy chair has a carbon footprint of 14.88 kg CO₂e - but we are still working on improving. Measuring our carbon footprint is the first step towards reducing it.

Our cradle-to-gate carbon footprint data takes into account Material, Transportation, Energy and Packaging. We have opted for cradle-to-gate because of the challenges linked to providing accurate data for the myriad destinations and end-uses that occur after the products leave the factory.

MATERIAL calculates the energy needed to produce the material itself. Using scrap material helps us keep our carbon footprint down and diverts waste from landfills.

PACKAGING accounts for the energy needed to produce that weight of cardboard at a typical factory in the United States in our region. We source our cardboard boxes from a local supplier that uses recycled cardboard. In some cases, we use recycled plastic bags, and other packaging pieces to protect our products inside the cardboard box. We are continuously working on finding sustainable solutions for our packaging.

ENERGY accounts for the energy needed to keep our Emeco Factory in Hanover, PA running.

TRANSPORTATION calculates the transport of materials and parts from our suppliers to our factory. The calculation includes the fuel burnt using a medium sized truck. It also takes into account the local shipping from the cardboard box supplier to our factory. We warehouse all chairs on site, so there is no other transportation before shipping.

*We measure carbon footprint using the 2030 Calculator, developed by Doconomy, a freely accessible tool that is an accurate depiction of carbon footprint.

[BACK TO INDEX](#)

Emeco requires a 50% deposit upon order and balance due before shipping. Prices do not include shipping; shipping quotes may be obtained by contacting Emeco Customer Service, 1 717 637 5951, info@emeco.net. Emeco accepts cheques, wire payments, and credit cards within USA.

Please send checks to Emeco Industries, 2650 El Presidio Street, Long Beach, CA 90810, USA.

Emeco requires a 25% restocking fee on returned orders of standard products. Custom products, Kong chairs and stools, and special powdercoat items may not be returned.

In the event of a variation to the original ship date as instructed by the purchaser, Emeco reserves the right to charge storage at the rate of 1% of the net order value per day for any completed orders that have exceeded their original ship date by more than 14 days.

MAINTENANCE AND CARE

[BACK TO INDEX](#)

Our first product, the Navy Chair, was made in 1944 to withstand the toughest conditions. Today our products are still designed and built to last. Part of that is ensuring they can be cleaned to keep them looking good for a long time and to help maintain a healthy environment - at home or in public settings, such as hospitality, corporate or healthcare environments.

All our recycled plastic and hand brushed aluminum chairs and stools are bleach cleanable. Hydrogen peroxide-based cleaners may also be used, dilution level 1:10. Please see detailed product specific info below.

Aluminum has anti-bacterial properties, making it a desirable material for sensitive settings such as healthcare environments, where it also performs exceptionally well from a maintenance standpoint.

To keep your Emeco furniture looking good, find the suitable care instructions for your product below.

[BACK TO INDEX](#)

BRUSHED FINISH

Anodizing changes the aluminum surface to aluminum oxide, a super-strong material.

Anodized aluminum is corrosion-proof and can be used outdoors, however we suggest cleaning with soap and water every two weeks to remove grit and other air pollutants that can pit the surface.

Emeco Navy chairs and stools with brushed finish are bleach cleanable. Hydrogen peroxide based cleaners (dilution level 1:10) may also be used.

Daily Cleaning

To keep your chairs looking beautiful, clean with soap and water, and dry with a soft cloth. You can also use Windex®, Formula 409® or similar spray cleaner, with or without bleach followed by a lint free towel. Hydrogen peroxide-based cleaners may also be used, dilution level 1:10. Wash any film or residue with hot water. Do not use Stainless Steel cleaner on any aluminum furniture. For Heavy-duty dirt or oil use a very hot water and strong soap, followed by LIGHT scrubbing in the direction of the aluminum grain with a soft bristled brush or damp Scotchbrite® pad.

Scuffmarks

Light scrubbing in the direction of the aluminum grain with a Scotchbrite® pad.

Stains

Treat the stain with the appropriate cleaner (i.e. bleach for coffee, paint thinner for paint) leave the cleaner sit on the stain until the stain is dissolved, then follow the instructions for heavy duty dirt.

POLISHED FINISH

It takes eight hours to hand polish each piece of Emeco furniture. Each item will exhibit slight variations of handcraft.

There is no coating on Emeco's hand polished items and they will begin to patina immediately upon use. Polished aluminum is non-corrosive and does not tarnish. To keep your polished chairs shining brightly use an ordinary car wax. Do not use abrasive cleansers, pads or brushes on hand polished aluminum.

Daily cleaning

Windex® or similar spray cleaner, with or without bleach followed by a soft, lint free towel. Wash any film or residue with hot water. Do not use Stainless Steel cleaner on any aluminum furniture.

Heavy-duty dirt or oil

We recommend Emeco Clean & Shine, which can be ordered from customerservice@emeco.net. Alternatively, use very hot water and strong soap, followed by a soft, lint free towel.

Light scratches

High quality aluminum polish with buffing pads in a circular pattern (available at most hardware stores). Follow by a light polish of cornstarch with a very soft cloth.

[BACK TO INDEX](#)

Daily cleaning

Use Windex® or similar spray cleaner, with or without bleach followed by a soft, lint free towel. Wash any film or residue with hot water. Rinse with clean water, using a clean, nonabrasive cotton cloth. Dry the surface with a soft, clean, non-abrasive cotton cloth. Hydrogen peroxide-based cleaners may also be used, dilution level 1:10. Wash any film or residue with hot water.

Normal maintenance and light scratches

Lemon Pledge or Armorall® (generically: spray wax with silicone) or Isopropyl Alcohol. Rinse with clean water, using a clean, non-abrasive cotton cloth. Dry the surface with a soft, clean, non-abrasive cotton cloth.

Abrasive pads, scouring powders or cleaners may permanently dull and scratch the rPET surface making it susceptible to staining. Never use cleaners containing acid, alkali, or concentrated sodium hypochlorite. These cleaners may mar, etch, corrode, and permanently discolor the surface.

[BACK TO INDEX](#)

Our reclaimed wood polypropylene products are made of 90% reclaimed post-industrial waste - polypropylene and wood fibers. Therefore slight differences in chair surfaces may occur.

Daily Cleaning

To keep your chairs looking beautiful, clean with soap and water and dry with a soft cloth.

Bleach may also be used, as well as hydrogen peroxide based cleaners (dilution level 1:10).

Wash any film or residue with hot water.

[BACK TO INDEX](#)

All Emeco wood products are made by hand from local, sustainably sourced solid wood. Each piece is unique with subtle differences.

Daily Cleaning

Clean the chair with a warm, soapy, damp cloth gently applied to the surface. Do not use any harsh or abrasive cleaning agents.

Solid wood is a natural fiber therefore it will shrink and swell with the seasons. Take care not to expose your furniture to extremes in temperature and humidity. Wet surfaces should be dried immediately. Solid wood changes color over time under normal conditions of light exposure, but do not expose directly to sunlight and heat.

Accoya Wood

Accoya wood is suitable for outdoor applications. Like any natural wood species, Accoya will grey and change color when exposed to exterior conditions. Regular cleaning with a rag or soft brush, a mild cleaner, and water is recommended for finish longevity. Do not use harsh or abrasive cleaning agents. Power/pressure washing should be avoided.

[BACK TO INDEX](#)

Emeco recycled and reclaimed polymers are made to last, with ingredients to slow down color fading due to UV light. However, we recommend limiting direct sun exposure whenever possible.

Daily Cleaning

To clean, use a soft, damp cloth and a mild soap or commercially available cleaner for plastics. Never use any abrasive or aggressive formulas such as powders or pastes, as these may cause surface damage or loss of color.

CORK

Clean the seat with a warm, soapy, damp cloth gently applied to the surface. Do not use any harsh or abrasive cleaning agents.

Take care not to expose your furniture to extremes in temperature and humidity. Wet surfaces should be dried immediately.

Cork changes color over time under normal conditions of light exposure, but do not expose directly to sunlight and heat.

ECO-CONCRETE

Clean with soap and water using a nylon-bristle brush.
